

SERVICES ENGINEERED FOR YOU

“IT TAKES PEOPLE TO MAKE THE DREAM A REALITY”

OVERVIEW

COMPANY OVERVIEW

Through its network of African offices and partners SFG Engineering Services specialises in project solutions throughout Africa and abroad in industries such as:

- Oil and Gas
- Engineering
- Mining
- Maritime
- Renewable Energy
- Tunneling

Our product service offerings include:

- Project personnel and international payroll facilities
- Ship repair
- Industrial engineering solutions
- Remote site establishment and catering
- Painting and shotblasting
- Rope access
- Procurement
- Scaffolding and logistical services

FOOTPRINT

Our African footprint allows us to mobilize our multi-disciplined teams in record time so that we can respond to the exact needs of our clients. We run local in-country as well as international payroll services. We manage visas, accommodation, transport and other logistical services.

Through continued growth within the Oil and Gas, Engineering, Mining, Maritime, Renewable Energy and Tunneling Industries we will continue investing and growing our African footprint.

STRATEGIC OBJECTIVES

SFG Engineering Services strives to be the leading supplier for total engineering and project solutions within the Oil and Gas, Engineering, Mining, Maritime, Renewable Energy and Tunneling Industries throughout Africa and abroad.

BUSINESS PHILOSOPHY

At SFG Engineering Services we believe in the model of investment within each country of operation. We have registered companies and partners in South, East, West and Central Africa. Through our local country operations and projects we add value to African country economies by creating employment and local investment opportunities.

We add value to our client's operational execution of large projects throughout Africa by offering a unique tailored package to suit their needs. Training is also given to local employees, which offers our clients the local content required of them by government organisations.

STATS FOR THE PAST 10 YEARS

-  570,000,000 MAN HOURS
-  475,017 CANDIDATES PLACED
-  85 WORKER SKILL SETS
-  24 COUNTRIES
-  17 TRAINING PROGRAMMES
-  6 INDUSTRIES

GLOBAL REACH WITH A STRONG AFRICAN FOUNDATION

SUSTAINABILITY

Health, safety, environment and quality

The health and safety of all employees are of the utmost importance to our organization. We do not expose any of our employees to risk within the work environment, and we also respect and adhere to environmental policies of the areas we operate in. Our Health and Safety policy is authorised by senior management and we prescribe to a philosophy of continuous improvement in all our operational activities.

SFG Engineering Services operates a management system that is accredited by ISO9001:2008 and MLC (Maritime Labour Convention)

OUR SERVICES

OIL & GAS, AND SHIP REPAIRS INDUSTRIAL ENGINEERING

- Fabrication maintenance teams
- Global onshore and offshore maintenance teams
